

## Memorandum

**To:** Joseph Martella, Rhode Island Department of Environmental Management (RIDEM)  
**From:** Michele V. Leone, Manager, New England Site Investigation & Remediation  
**Date:** 08/18/2011  
**Subject:** Upcoming Site Response Action Report – Week of August 22, 2011  
Former Tidewater Facility  
Pawtucket, Rhode Island  
RIDEM Case No. 95-022

---

As requested by RIDEM, the following summarizes response actions expected to be performed at the above-referenced site during the week of August 22, 2011.

### SITE ACTIVITIES TO BE PERFORMED

- Complete site observation walk;
- Continue shallow excavations within the natural gas regulator station area to isolate gas utilities. Limited area of polychlorinated biphenyl (PCB) impacted soil and concrete will be removed from within the fenced regulator station as part of this work;
- Continue trenching associated with undergrounding the overhead gas line near the regulator station;
- Restoration of limited areas of erosion within former gas holder area; and
- Continue air monitoring during excavation activities in accordance with the April 2011 Air Quality Monitoring Program (AQMP).

Subsequent to the completion of the excavation work, certain above-ground activities (i.e., no excavation work) associated with the regulator station upgrades will be performed at the site.
