Former Tidewater Facility  
Pawtucket, Rhode Island  
RIDEM Case No. 95-022

---

On behalf of National Grid, the following summarizes response actions expected to be performed at the above-referenced site during the week of March 26, 2012.

### SITE ACTIVITIES TO BE PERFORMED

- No site activities are anticipated.

The excavation work associated with the regulator station upgrades is complete. Above-ground work associated with the regulator station is complete, except for replacement of one of the buildings within the regulator station fence line. The schedule for this work is pending.

Earthwork associated with the proposed electrical substation upgrades is tentatively anticipated to begin in August 2012. An evaluation regarding the applicability of Air Pollution Control Regulation No. 9 with respect to the excavation work associated with proposed electrical substation upgrades was submitted to RIDEM on February 13, 2012.

Until otherwise noted, the update schedule will be modified to every 2 weeks until work activity at the Site increases. The next schedule update will be prepared for the time period April 2 through 13, 2012.
