Re: Site Response Action Status Report – March 1st to March 31st, 2016
Former Tidewater Facility
Pawtucket, Rhode Island
RIDEM Case No. 95-022 / Site Remediation File No. SR-26-0934

The following summarizes response actions completed at the above-referenced site for the period March 1st, 2016 through March 31st, 2016, as well as planned activities.

SITE ACTIVITIES PERFORMED

- Performed Site visits to document security conditions and sheen observations, if present.

FUTURE RESPONSE ACTION WORK/SCHEDULE

- A Short Term Response Action Plan (STRAP) was submitted to RIDEM on January 25th, 2016 which summarized the proposed activities related to a drainage repair and the restoration of the south washout area. The complete STRAP was posted to National Grid's Tidewater website (www.tidewatersite.com). After RIDEM has reviewed the STRAP, National Grid plans to host a public meeting to present the proposed STRAP activities. We expect the proposed STRAP activities to be performed during the summer of 2016, pending necessary approvals.
- Continue quarterly NAPL monitoring and recovery. The next event is scheduled for April 2016.
- Continue Site visits to document security conditions and sheen observations.

Please call me if you have any questions at 401-421-4140 Ext. 2719 or Michele Leone at 401-784-7337.
