Bernd Hirschberg
Clariant Corporation
500 Washington Street
Coventry, RI 02816

Dear Mr. Hirschberg:

The Department of Environmental Management, Office of Air Resources has reviewed and approved your request for a minor source permit for the Lower Mill Raceway Sediment Remediation activities at your 500 Washington Street, Coventry facility.

Enclosed is a minor source permit issued pursuant to our review of your application (Approval No. 1913).

Should you have any questions concerning this permit, I can be reached at 222-2808, extension 7011.

Sincerely,

Douglas L. McVay
Associate Supervising Engineer

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
OFFICE OF AIR RESOURCES

MINOR SOURCE PERMIT

CLARIANT CORPORATION.

APPROVAL NO. 1913

Pursuant to the provisions of Air Pollution Control Regulation No. 9, this minor source permit is issued to:

Clariant Corporation

For the following:

Site remediation activities for the Lower Mill Raceway.

Located at: *500 Washington Street, Coventry*

This permit shall be effective from the date of its issuance and shall remain in effect until revoked by or surrendered to the Department. This permit does not relieve *Clariant Corporation* from compliance with applicable state and federal air pollution control rules and regulations. The design and implementation of all field activities associated with this project shall be subject to the attached permit conditions and emission limitations.

Stephen Majkut, Chief
Office of Air Resources

Date of issuance

**STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS

OFFICE OF AIR RESOURCES**

Permit Conditions and Emission Limitations

CLARIANT CORPORATION

APPROVAL NO. 1913

A. General Limitations

1. All reasonable precautions shall be taken to prevent fugitive particulate emissions from the storage, handling, or transporting of the contaminated soil, the Portland cement and the ash.
2. All open storage areas and or piles of sediment or any other dust producing material associated with remediation shall be covered or watered down as necessary to prevent generation of dust.
3. Any air contaminant or combination of air contaminants discharged to the atmosphere from the remediation activities shall not create an objectionable odor beyond the property line of this facility. Odor evaluations shall be conducted according to the provisions of Air Pollution Control Regulation No. 17.
4. All activities associated with the remediation of the Lower Mill Raceway sediment shall be conducted in a manner to minimize the potential for generating objectionable odors beyond the property line. Such activities shall include, but not be limited to, soil excavation, storage, handling, transport or processing.

B. Recordkeeping and Reporting

1. The owner\operator shall maintain records of the quantity of material stabilized from the Lower Mill Raceway per day.
2. The owner\operator shall notify the Office of Air Resources in writing, of the date that remediation activities under this permit are to begin, no later than 1 day before such date.
3. The owner/operator shall notify the Office of Air Resources in writing, the date that remediation activities under this permit are complete.

4. The owner/operator shall notify the Office of Air Resources of any anticipated noncompliance with the terms of this permit or any other applicable air pollution control rules and regulations.
5. The owner/operator shall notify the Office of Air Resources in writing of any planned physical or operational change to the remediation activities that would:
 - a. Change the representation of the facility in the application.
 - b. Alter the applicability of any state or federal air pollution rules or regulations.
 - c. Result in the violation of any terms or conditions of this permit.
 - d. Qualify as a modification under APC Regulation No. 9.

Such notification shall include:

- Information describing the nature of the change.
- Information describing the effect of the change on the emission of any air contaminant.
- The scheduled completion date of the planned change.

Any such change shall be consistent with the appropriate regulation and have the prior approval of the Director.

6. All records required in this permit shall be maintained for a minimum of three years after the date of each record and shall be made available to representatives of the Office of Air Resources upon request.
- C. C. Other Permit Conditions
1. The Lower Mill Raceway Sediment Remediation activities shall be designed and implemented consistent with the representation of the activities in the air pollution permit application submitted to the Office of Air Resources.
 2. Employees of the Office of Air Resources and its authorized representatives shall be allowed to enter the facility at all times for the purpose of inspecting any air pollution source, investigating any condition it believes may be causing air pollution or examining any records required to be maintained by the Office of Air Resources.
