DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
OFFICE OF COMPLIANCE & INSPECTION**

IN RE: Lois Labrie

FILE NO.: Dam State I.D. 373

NOTICE OF VIOLATION

A. Introduction

Pursuant to Sections 42-17.1-2(21) and 42-17.6-3 of the Rhode Island General Laws, as amended, ("R.I. Gen. Laws") you are hereby notified that the Director of the Department of Environmental Management (the "Director" of "DEM") has reasonable grounds to believe that the above-named party ("Respondent") has violated certain statutes and/or administrative regulations under DEM's jurisdiction.

B. Facts

- (1) The subject property is a dam identified as Clarke's Upper Dam, State Identification Number 373, located east of the intersection of Main Street and Hall Lane and immediately south of the approximate midpoint of the east-west section of Hall Lane, in the city of Cranston, Rhode Island ("Dam 373").
- (2) The Respondent owns Dam 373.
- (3) Dam 373 is classified by DEM as High Hazard.
- (4) On October 14, 2009, Dam 373 was inspected. The inspection revealed the following:
 - (a) Leaves and yard debris 12-18 inches in thickness was dumped on the upstream side and crest of the embankment that did not allow a proper inspection to be performed; and
 - (b) The low level gate was inoperable.
- (5) DEM considers Dam 373 unsafe for the following reasons:
 - (a) Leaves and yard debris inhibit a proper inspection; and
 - (b) An inoperable low level gate.
- (6) In a certified letter from DEM to the Respondent dated November 16, 2010, which the Respondent received on November 30, 2010, DEM forwarded a registration form for Dam 373. The Respondent was required to complete and return the form to DEM by December 14, 2010.

- (7) As of the date of this Notice of Violation (“NOV”), the Respondent has not provided the registration form to DEM.

C. Violation

Based on the foregoing facts, the Director has reasonable grounds to believe that you have violated the following statutes and/or regulations:

- (1) **Rules and Regulations for Dam Safety (the “Dam Safety Regulations”), Rule 4A** – requiring the owner of a high hazard dam to maintain the dam in a safe condition
- (2) **Dam Safety Regulations, Rule 8** – requiring the owner of a dam to provide a fully completed registration form to DEM.

D. Order

Based upon the violations alleged above and pursuant to R.I. Gen. Laws Section 42-17.1-2(21), you are hereby ORDERED to:

- (1) **Within fourteen (14) days of receipt of the NOV**, complete and submit to DEM the enclosed registration form.
- (2) **Within ninety (90) days of receipt of the NOV**, remove the leaves and yard debris from the embankment.
- (3) **Within one hundred eighty (180) days of receipt of the NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with dam inspections, to complete a visual inspection of Dam 373 in accordance with the Dam Safety Regulations, Rule 11C and submit a report of the inspection findings to DEM. The report must specify the actions (in addition to the actions ordered in the NOV) necessary to return the dam to a safe condition and include a schedule to complete the work. For any proposed repairs to Dam 373, the report must include an application prepared in accordance with the Dam Safety Regulations, Rule 10B.
- (4) **Within one hundred eighty (180) days of receipt of this NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with design, construction and repair, to submit an application to DEM in accordance with the Dam Safety Regulations, Rule 10B to repair the low level gate. The application must include a schedule to complete the work.
- (5) The reports, applications, and/or schedules required in Sections D.3 and D.4 above shall be subject to DEM review and approval. Upon review, the DEM shall provide written notification to the Respondent either granting formal approval or stating the deficiencies therein. **Within fourteen (14) days (unless a longer time is specified) of receiving a notification of deficiencies**, the Respondent shall

submit to the DEM a modified report, application, and/or schedule or additional information necessary to correct the deficiencies.

- (6) Commence work specified in the schedule approved by the Director within twenty (20) days of approval (unless otherwise expressly authorized by the Director in writing to commence work at a later time), and complete such work in accordance with the approved schedule.
