NOTICE OF VIOLATION

A.    Introduction

Pursuant to Sections 42-17.1-2(21) and 42-17.6-3 of the Rhode Island General Laws, as amended, (“R.I. Gen. Laws”) you are hereby notified that the Director of the Department of Environmental Management (the “Director” of “DEM”) has reasonable grounds to believe that the above-named parties (“Respondents”) have violated certain statutes and/or administrative regulations under DEM's jurisdiction.

B.    Facts

- (1)    The subject property is a dam identified as Metcalf Wildlife Marsh Dam, State Identification Number 527, located northwest of the intersection of Tripps Corner Road and Sheffield Hill Road and east of Gardiner Road, in the town of Exeter, Rhode Island (“Dam 527”).
- (2)    The Respondents own Dam 527.
- (3)    The Rhode Island Secretary of State’s corporations database has no listing for SCOBCO Associates as an active or inactive corporation.
- (4)    Dam 527 is classified by DEM as High Hazard.
- (5)    On June 24, 2010, Dam 527 was inspected. The inspection revealed the following:
  - (a)    Excessive vegetation on the left two thirds of the downstream side of the embankment that did not allow a proper inspection to be performed; and
  - (b)    The low level gate was inoperable.
- (6)    DEM considers Dam 527 unsafe for the following reasons:
  - (a)    Excessive vegetation inhibits a proper inspection; and
  - (b)    An inoperable low level gate.

C.    Violation

Based on the foregoing facts, the Director has reasonable grounds to believe that you have

violated the following statutes and/or regulations:

- (1) **Rules and Regulations for Dam Safety (the “Dam Safety Regulations”), Rule 4A** – requiring the owner of a high hazard dam to maintain the dam in a safe condition

D. Order

Based upon the violations alleged above and pursuant to R.I. Gen. Laws Section 42-17.1-2(21), you are hereby ORDERED to:

- (1) **Within ninety (90) days of receipt of the NOV**, remove the excess vegetation from the embankment.
- (2) **Within one hundred eighty (180) days of receipt of the NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with dam inspections, to complete a visual inspection of Dam 527 in accordance with the Dam Safety Regulations, Rule 11C and submit a report of the inspection findings to DEM. The report must specify the actions (in addition to the actions ordered in the NOV) necessary to return the dam to a safe condition and include a schedule to complete the work. For any proposed repairs to Dam 527, the report must include an application prepared in accordance with the Dam Safety Regulations, Rule 10B.
- (3) **Within one hundred eighty (180) days of receipt of this NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with design, construction and repair, to submit an application to DEM in accordance with the Dam Safety Regulations, Rule 10B to repair the low level gate. The application must include a schedule to complete the work.
- (4) The reports, applications, and/or schedules required in Sections D.2 and D.3 above shall be subject to DEM review and approval. Upon review, the DEM shall provide written notification to the Respondents either granting formal approval or stating the deficiencies therein. **Within fourteen (14) days (unless a longer time is specified) of receiving a notification of deficiencies**, the Respondents shall submit to the DEM a modified report, application, and/or schedule or additional information necessary to correct the deficiencies.
- (5) Commence work specified in the schedule approved by the Director within twenty (20) days of approval (unless otherwise expressly authorized by the Director in writing to commence work at a later time), and complete such work in accordance with the approved schedule.
