- (1) **Within one hundred eighty (180) days of receipt of this Notice of Violation**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with design, construction and repair, to submit an application to DEM in accordance with the Dam Safety Regulations, Rule 10B to repair the low level gates for Dam 43. The application must include a schedule to complete the work.
- (2) The application required in Section D.1 above shall be subject to DEM review and approval. Upon review, the DEM shall provide written notification to the Respondent either granting formal approval or stating the deficiencies therein. **Within fourteen (14) days (unless a longer time is specified) of receiving a notification of deficiencies**, the Respondent shall submit to the DEM a modified application or additional information necessary to correct the deficiencies.
- (3) Commence work specified in the schedule approved by the Director within twenty (20) days of approval (unless otherwise expressly authorized by the Director in writing to commence work at a later time), and complete such work in accordance with the approved schedule.
