Mr. Robert F. L. Dorr  
60 Crescent Street  
Providence, RI 02907

RE: Former Gorham Manufacturing Site  
Providence, RI

Dear Mr. Dorr:

Thank you for your letter of July 23, 2007.

While we appreciate your identifying yourself as the spokesperson for these various community stakeholder groups, we would also appreciate being able to make sure these individuals are included on our mailing list so they can directly receive notices of our site activities and any public meetings. The inability for us to have direct correspondence with their members and lack of presence at community meetings makes it difficult to engage the range of community perspectives and to better gauge community interest and informational needs.

Your letter states that the Adelaide Avenue Environmental Justice Coalition has a "panel of members" that compiles data to be incorporated into project-related correspondence. We would appreciate having a listing of these members so we can ensure we are fully responsive to all stakeholders. We will also follow-up with the other contacts you provide to us if you do not have access to these individuals.

We also repeat our request for information regarding the 2006 analytical data to which you refer from Parcel D. We are committed to remediating Parcel D to a level that will be safe enough for the parcel to be used as a park and are trying to accomplish this task in an expedited manner for the betterment of the Community. Although apparently obtained over a year ago, this analytical information has not been shared with Textron or RIDEM. We again ask that you provide this information to RIDEM such that it may be posted on the project website for all stakeholders to view.

We look forward to receiving community stakeholder contact information and any information you have regarding Community's 2006 analytical data from Parcel D.

Thank you for your continued interest.

Sincerely,

TEXTRON INC.

Gregory L. Simpson  
Sr. Project Manager
