Kelly, Jeff, and Rich:

I have spoken to Donna O'Connor (PPS Nursing Administrator) and Donna Pallister (Arcadis). I have called and emailed Rupert Burtan (Aramark - Maintenance).

Although I have not yet been able to speak to Rupert, I have scheduled a site inspection for this Friday at 1:00. Donna Pallister will assist us in gaining access to the building and identifying system components, locations, and operations.

I have also identified the two nurses for each of the schools (Ann Marie Anderson-Carnevale School and Patricia Arcieri - Del Sesto School), and we can speak to them when we are on-site, or follow up with them via phone individually.

Please let me know if you need me to do anything else in the meantime to assist in requesting an extension for completion of the draft report.

Thanks

-PJD

Hi Rupert,

I left you a voice mail earlier this morning, but figured I would follow up with you via email as well. What I am looking for at this point is two-fold:

Untitled

- 1) I am looking to confirm who in your maintenance department (if it is someone other than you) is most knowledgeable about the operation, monitoring, and maintenance of the environmental remediation systems (sub slab ventilation, soil cap, monitoring wells, etc) at the Springfield Street Schools.
- 2) Set up a time to meet with you (or your designee if appropriate) at the school site to conduct an inspection of the school grounds and remedial systems and to ask some questions regarding the operation of these systems.

If you could please give me a call back at your earliest convenience I would appreciate it. We would like to conduct this inspection within the next few days if at all possible.

Thank you

Hi Pat,

The contact person for our custodial and maintenance contractor, Aramark, is General Manager Rupert Burtan. The PPSD Nurse Administrator is Donna O'Connor. (Both are copied on this email.)

Donna and Rupert,

From below: A consultant (Patrick Dowling of Fuss and O'Neill) for the Springfield Street School remediation plan would like to coordinate access with the Providence School Department. Mr. Dowling will require access to the two schools in order to conduct an inspection and arrange for interviews with pertinent school personnel, including the school nurse(s) and lead maintenance personnel.

Please make yourselves available to Mr. Dowling for the inspection and interviews.  
Thanks. -cwj

Carleton,

Per your conversation with Rich Bianculli last Tuesday, I was anticipating that you would be providing us with the contact information necessary for us access the Springfield St School and perform our interviews with pertinent personnel as part of our 5 year environmental review.

Can you forward this information as soon as possible?

Thank you

Good Morning Mr. Bianculli,

Let's speak hopefully today to get this matter resolved. Are you available to speak today between 2:00 and 3:00 PM? If not I will put you back in touch with my secretary, Peggy Tindall, who will schedule our phone call. Thanks. -cwj

Subject: Spring Street School Remediation Plan

Mr. Jones,

I left a message with your secretary this afternoon. The consultant (Patrick Dowling of Fuss and O'Neill) for the Springfield Street School remediation plan would like to coordinate access with the Providence School Department. Mr. Dowling will require access to the two schools in order to conduct an inspection and arrange for interviews with pertinent school personnel, including the school nurse(s) and lead maintenance personnel.

Mr. Dowling has made several attempts to contact the Department over the past several weeks, but, unfortunately, he has been unsuccessful. Please give me a call at your earliest convenience in order to discuss this matter. If you would prefer to coordinate an inspection with Mr. Dowling directly, he may be reached at 401.861.3070, extension 4568. Please feel free to contact me directly if you have any questions. Thank you for your time and attention to this matter.
