RE: Site Response Action Status Report – April 1 through 30, 2014
Former Tidewater Facility
Pawtucket, Rhode Island
RIDEM Case No. 95-022

The following summarizes response actions completed at the above-referenced site for the period April 1, 2014 through April 30, 2014.

SITE ACTIVITIES PERFORMED

- Performed Site visits to document security conditions and sheen observations, if present.
- Performed field activities related to the soil and groundwater investigation program within the natural gas regulator station. This program was described in the February 2014 Supplemental Site Investigation Work Plan (SSIWP). Test borings, monitoring well installations and soil sampling activities were completed on April 3 and 4, 2014 and groundwater sampling was completed on April 17, 2014.
- Performed quarterly Non Aqueous Phase Liquid (NAPL) monitoring and recovery round on April 22 and 24, 2014.

FUTURE RESPONSE ACTION WORK/SCHEDULE

- Continue quarterly NAPL monitoring and recovery. The next event is scheduled for July 2014.
- Continue Site visits to document security conditions and sheen observations.
- It is anticipated that a report summarizing the April 2014 soil and groundwater investigation program within the natural gas regulator station will be submitted to RIDEM in June 2014.

Please call me if you have any questions at 401-421-4140 Ext. 2719 or Michele Leone at 781-907-3651.
