Former Tidewater Facility  
Pawtucket, Rhode Island  
RIDEM Case No. 95-022

---

As requested by RIDEM, the following summarizes response actions expected to be performed at the above-referenced site during the week of June 13, 2011. No significant activities are anticipated during this week.

### SITE ACTIVITIES TO BE PERFORMED

- Complete site observation walk.

As you aware, upgrades to our Tidewater natural gas regulator station began three weeks ago. The first two weeks of the project involved only fabrication activities which were performed off-site. Based on the current schedule, we anticipate that the contractor may begin to mobilize to the site during the next two weeks. We currently anticipate that excavation activities will not begin before the week of June 27<sup>th</sup>.

Please note that a document repository for this site has been set up at the Pawtucket Public Library (13 Summer Street).
