SITE ACTIVITIES TO BE PERFORMED

- No site activities are planned for the week of June 8, 2015 to June 12, 2015.
- Complete bimonthly Site observation walk during week of June 15, 2015 to June 19, 2015.
- Mobilize and begin demolition activities associated with three on-Site buildings (the former machine shop, purifier house and the meter room) in June 2015. Mobilization is anticipated to start on June 18th with demolition-related work starting June 23rd. The process is expected to be complete by August 28th. National Grid will have a representative on-site who will monitor the work and conduct air monitoring throughout the demolition project. The air monitoring will be consistent with the site-specific, Rhode Island Department of Environmental Management (RIDEM)-approved Air Quality Monitoring Plan that includes a two-tiered approach during intrusive activities. A fact sheet with more information regarding this work will be posted and sent to the email distribution list the week of June 8th.

Please contact Meg Kilpatrick at 401-421-4140 Ext. 2719 if you have any questions or comments.
