Requirements and Guidance for filling out application for RESCUE / SHELTER / BROKER, etc.

Frequently Asked Questions (FAQs)

Who is required to apply as a Rescue, Shelter, Etc?

Both RI-based and out-of-state based Rescues, Shelters, Brokers and Remote Sales, as defined in Regulations and RI General Law

Who is Rescue, Shelter, etc. app NOT for?

While many of the reporting and record keeping requirements are the same, the Rescue/Shelter/etc. Application is NOT for RI Municipal Animal Control Facilities (Pounds / Municipal Shelters).

Is there a Fee?

NO.

Is Non-Profit status required?

For Rescues and Shelters, YES. Applying Entity must either be Federal or Domestic Non-profit Proof of valid, current Non-profit status must be provided with application.

Can a Rescue, etc. be Home-based or Foster-based?

Yes. However, if within RI, Proof of Municipal compliance for applicant must also be provided. All RI Fosters must also be municipally compliant.

What if Rescue, etc. is NOT located within RI but wants to Adopt to Foster with RI residents?

You can apply but must have a RI Point of Contact who must maintain all records as required in regulations and provide those records immediately upon request. All Rhode Island Fosters must be listed on application and updates provided as they occur.

Do Rescues, etc. have to Isolate animals prior to adoption?

It depends on whether applying as **Category A** or **Category B**.

As part of the application's "Operational Plan," Rescues, etc. that Import animals may apply as **Category A** and submit a "Pre Import Processing Plan" (within application). If approved, they can import and adopt or foster animals without further Isolation.

Alternatively, Rescues, etc. that Import animals can apply as a **Category B** and must Isolate animals at a RI-approved Isolation Facility for FIVE (5) days (Minimum 120 hours) and have animal examined by a private-sector Veterinarian prior to release from Isolation. Applying Rescue must establish connection with intended facility or individual. We do not maintain or provide a list of approved Isolation facilities. All proposed Isolation facilities within RI must be inspected and approved by RI DEM Division of Agriculture prior to use. If Isolation facility is based outside of RI, proof of licensing as Isolation facility must be provided.

What if Rescue, Shelter, etc. is RI-based and only handles RI animals (does not import)?

Rescues that handle only RI origin animals are not required to submit a Pre Import Processing Plan or Isolate animals (unless advised by private sector vet). All record keeping requirements are the same.

Can Rescue, etc. adopt animals from RI to another State?

Generally, each US State has importation requirements for all animals (such as OCVI and proof of Rabies). Many have specific Import requirements for Rescues. You will need to check each destination state for their requirements.

Here are links to resources: <https://www.interstatelivestock.com/> (Dogs and Cats, too!)

<https://www.aphis.usda.gov/aphis/pet-travel/interstate-pet-travel>

What about animals imported into RI and Fostered in RI later being adopted outside of RI?

RI Import requirements require an OCVI to be issued for an animal to enter RI. However, State of Destination requirements must also be met which generally means a New OCVI must be issued in RI prior to movement to another state. Rescue may also be required to be licensed in other state in order to adopt or foster into that state.

What does RI Licensed Rescue, etc. do if an infectious, contagious disease has been diagnosed in: a) an adopted animal b) a fostered animal or c) animal commingled with on transport, etc.??

Per Part 11.6 A 1 of [Rules and Regulations Governing Reportable Animal Diseases and Conditions in the State of Rhode Island \(250-RICR-40-05-11\)](#): “Any person who knows or believes an animal is infected with any reportable disease, or is affected by a reportable condition, is required to report that disease or condition to the Rhode Island State Veterinarian.”

Can RI Licensed Rescue, etc. adopt animals from RI to another Country?

Check <https://www.aphis.usda.gov/aphis/pet-travel> for requirements.

Rescue, etc. must maintain records as required.

Can RI Licensed Rescue, etc. import animals from outside of US?

Yes. However, animal(s) must meet USDA Import requirements and Rescue must maintain ALL records. <https://www.aphis.usda.gov/aphis/pet-travel/bring-pet-into-the-united-states>

New for Registration for 2021:

Per Part 4.9 K of the [Rules and Regulations Governing Animal Care Facilities \(250-RICR-40-05-4\)](#):

4.9 Applications for Licenses or Certificates of Registration to Operate an Animal Care Facility

K. It shall be unlawful for any person to operate any animal care facility licensed or registered pursuant to this Part on an expired license or on an expired license application unless the Department receives a renewal application no greater than ninety (90) days after the expiration of the license or certificate of registration. All such renewal applications must be postmarked, emailed, faxed, or hand delivered no greater than ninety (90) days after the expiration date listed on the most recent license or certificate of registration. *Any application received after the ninety (90) day grace period for renewal will require the applicant to submit an application for a new license or certificate of registration, not a renewal of the previous license or certificate of registration.*

Where to START!

Review and be familiar with Governing Rules and Regulations and RI General Laws listed below and on page seven (7) and eight (8) of the Application. The Application is intended to capture information Rescues, etc. are obligated to collect, maintain and provide upon request.
