

# Low-Level Hydrostatic Tightness Testing Approved List

Last Updated 10/12/2021

The following is a list of facilities where low-level hydrostatic testing of sumps and under-dispenser containment have been approved. Remember – Low-level hydrostatic testing is only allowed at facilities that have been pre-approved and meet the applicable compliance and equipment requirements outlined in the RI DEM Low-Level Hydrostatic Tightness Test method. This method is available on our website at <http://www.dem.ri.gov/ust/>. Any test performed at a facility that has not been approved for low-level testing and does not appear on this list shall be considered invalid and cannot be used to meet certain State and Federal regulatory requirements.

DEM Facility ID	Name	Address	Components Eligible for Low-Level Test	Limitations
428	Shell	1783 Louisquisset Pike, Lincoln	STP sumps and all dispenser UDC	
430	Shell	2095 Diamond Hill Road, Cumberland	STP sumps and all dispenser UDC
