

Pesticide Safety and IPM Training

Private Certification: if you produce an agricultural commodity such as vegetable, fruit, turf or nursery and apply “restricted use” pesticides to control pests.

Commercial License: if you work for hire applying “general use” pesticides to control pests.

Commercial Certification: if you work for hire and apply “restricted use” pesticides to control pests.

Pesticide Dealer: if you sell “restricted use” pesticides.

Training Requirements: All applicators listed above are required to attend the core training which consists of 2 days with an exam in the afternoon of the second day. Individuals that would like to become commercially certified are required to attend category training in their specialty area.

Preregistration is required by mail. Use the registration form. Call Margaret Siligato if you need a confirmation.
