

CORRESPONDENCE WITH VOLUNTEERS AND DONORS

E-mail Alert for Volunteers (In-state)

State emergency-response authorities now anticipate the need to ready for a potential emergency. In particular, a storm that is now south of New England may track in our direction. If weather forecasts indicate that RI landfall is very likely, the State Veterinarian will activate RIDART to staff one or two of the State animal care centers (Boss Arena in Kingston and/or Thayer Arena in Warwick). For now, though, we only ask you, please:

1. Prepare yourself and your dependants, including your animals to safely weather a storm. Gather necessities and go-kits to last for at least three days.
2. Respond to this email by letting us know if you anticipate that you will be able to respond to a DART activation.

So let us know: Are you and your dependents prepared for you to be away from home to help staff one of the State animal care centers (assuming activation will be for 3 days, beginning one day before the storm's predicted landfall)?

Sincerely,

DART Volunteer Coordinator

Please note that there are other animal shelters in Rhode Island and other affected states that may need volunteer assistance.
