RE: **RELEASES OF NOTICES OF VIOLATION**

File Name: OBF, LLC and Craig S. Hibbad

File Numbers: OWTS CI09-0137 and 2007/428FW X-Ref C06-0012

Dear Mr. Hibbad,

Enclosed are the original Releases of Violation for Notices of Violation that were issued on June 25, 2010, September 18, 2007 and March 25, 2008 for septic system and freshwater wetland violations on your property. These releases effectively dismiss the Notices of Violation.

Please note that in accordance with the letter you submitted to the DEM dated January 12, 2016, you agreed to allow the area on the north side of the house, from the base of the hill to the fence and the west side of the house between the dog pens to the stone wall, to revert to a natural, wild condition (as shown on the sketch which is attached hereto and incorporated herein).

No future clearing, mowing, cutting, trimming, installation of structures, placement of boats or other alterations are allowed in this area without first obtaining a permit or approval from the DEM as required by Rhode Island General Law Section 2-1-21.

It is your obligation to record these original Releases of Violation in the land evidence records of the Town of Little Compton.

Please mail a copy of the recorded Releases of Violation to me for the DEM's records.

Sincerely,

David E. Chopy, Chief
DEM Office of Compliance and Inspection
