DEPARTMENT OF ENVIRONMENTAL MANAGEMENT  
OFFICE OF COMPLIANCE & INSPECTION**

**IN RE: Rhode Island Boy Scouts**

**FILE NO.: Dam State I.D. 225**

NOTICE OF VIOLATION

A. Introduction

Pursuant to Sections 42-17.1-2(21) and 42-17.6-3 of the Rhode Island General Laws, as amended, (“R.I. Gen. Laws”) you are hereby notified that the Director of the Department of Environmental Management (the “Director” of “DEM”) has reasonable grounds to believe that the above-named party (“Respondent”) has violated certain statutes and/or administrative regulations under DEM’s jurisdiction.

B. Facts

- (1) The subject property is a dam identified as Wincheck Pond Dam, State Identification Number 225, located on the end of the northeast cove of the pond, west of the intersection of North Road and Wincheck Pond Extension in the town of Hopkinton, Rhode Island (“Dam 225”).
- (2) The Respondent owns Dam 225.
- (3) Dam 225 is classified by DEM as Significant Hazard.
- (4) On May 7, 2010, Dam 225 was inspected. The inspection revealed the following:
  - (a) Excessive vegetation along the upstream embankment and crest to the left of the spillway that did not allow a proper inspection to be performed;
  - (b) An inoperable low level gate;
  - (c) Seepage through the right downstream wall of the low level outlet with possible sediment transport;
  - (d) Placement of sand bags on the upstream wall of the embankment and the spillway’s right training wall to prevent overtopping and redirect flow; and
  - (e) Debris downstream of the spillway that did not allow a proper inspection to be performed.
- (5) DEM considers Dam 225 unsafe for the following reasons:
  - (a) Excessive vegetation and debris inhibits proper inspection;

- (b) Possible sediment transport through the wall of the low level outlet;
- (c) An inoperable low level gate; and
- (d) Placement of sand bags to prevent overtopping.

C. Violation

Based on the foregoing facts, the Director has reasonable grounds to believe that you have violated the following statutes and/or regulations:

- (1) **Rules and Regulations for Dam Safety (the “Dam Safety Regulations”), Rule 4A** – requiring the owner of a significant hazard dam to maintain the dam in a safe condition.

D. Order

Based upon the violations alleged above and pursuant to R.I. Gen. Laws Section 42-17.1-2(21), you are hereby ORDERED to:

- (1) **Within ninety (90) days of receipt of the NOV**, remove the excess vegetation from the embankment and the debris downstream of the spillway.
- (2) **Within one hundred eighty (180) days of receipt of the NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with dam inspections, to complete a visual inspection of Dam 225 in accordance with the Dam Safety Regulations, Rule 11C and submit a report of the inspection findings to DEM. The report must specify the actions (in addition to the actions ordered in the NOV) necessary to return the dam to a safe condition and include a schedule to complete the work. The report must include an assessment of the possible sediment transport through the wall of the low level outlet and an assessment of the sections of the dam where sand bags have been placed to prevent overtopping. For any proposed repairs to Dam 225, the report must include an application prepared in accordance with the Dam Safety Regulations, Rule 10B.
- (3) **Within one hundred eighty (180) days of receipt of this NOV**, retain a professional engineer fully registered in the State of Rhode Island, who is experienced with design, construction and repair, to submit an application to DEM in accordance with the Dam Safety Regulations, Rule 10B to repair the low level gate. The application must include a schedule to complete the work.
- (4) The report and applications required in Sections D.2 and D.3 above shall be subject to DEM review and approval. Upon review, the DEM shall provide written notification to the Respondent either granting formal approval or stating the deficiencies therein. **Within fourteen (14) days (unless a longer time is specified) of receiving a notification of deficiencies**, the Respondent shall

submit to the DEM a modified report, application, and/or schedule or additional information necessary to correct the deficiencies.

- (5) Commence work specified in the schedule approved by the DEM within twenty (20) days of approval (unless otherwise expressly authorized by the DEM in writing to commence work at a later time), and complete such work in accordance with the approved schedule.
