**Subject: Revised Parcel A Remedial Action Closure Report
Former Gorham Facility
333 Adelaide Avenue, Providence, Rhode Island
Amec Foster Wheeler Project No. 3651170068**

Dear Mr. Martella:

In August 2018 Wood Environment & Infrastructure Solutions, Inc. (Wood), on behalf of Textron, Inc., submitted to RIDEM the Remedial Action Closure Report (RACR) for Parcel A of the Former Gorham Manufacturing Facility located at 333 Adelaide Avenue, Providence, Rhode Island.

Recently, it was brought to our attention that the concentration units on Figures 8 through 14 were identified as "ug/l", when they should have been "mg/l". We request that you replace Figures 1 - 15 of your hardcopy report with the attached versions.

In addition to the attached replacement figures, I am providing a complete updated electronic version of the report with the corrected figures incorporated.

We apologize for any inconvenience this may cause.

We look forward to your review and approval of this closure report.

If you have any questions regarding this matter, please feel free to call me at 978/392-5312.

Sincerely,

Wood Environment & Infrastructure Solutions, Inc.

A handwritten signature in black ink, appearing to read "Herb Colby". The signature is written in a cursive, slightly slanted style.

Herb Colby, PG
Sr. Project Manager
