NEW EPA BIENNIAL REPORTING SOFTWARE

- USEPA has developed new Biennial Reporting Software that works on the Central Data Exchange for filing hazardous waste reports
- CDX is also used for updating Hazardous Waste Generator ID forms (myrcraid) as well as e-manifesting (under development).
- Data filed goes directly into the system and is sent to RIDEM for further processing.
- Test site for CDX application is located at: <https://test.epacdx.net/>
- Live site for submission of CDX data (including biennial report): <https://cdx.epa.gov/>
