The Office of Waste Management Site Inventories

Site Remediation and Brownfields Program

List of CERCLIS and State Sites in RI

This list includes sites that have been investigated under the Federal CERCLIS program (“SFA” sites) as well as sites that have notified under the state program or have been investigated for hazardous substances (“HWM” sites). This list includes Brownfield sites. [Click here for explanation of codes.](#)

Waste Management Sites with Environmental Land Use Restrictions

This list was developed by RIDEM for use as a general reference and are not meant to be a legally authoritative source for the location of hazardous materials, nor for the status, condition or permissible use of a site.

Solid and Hazardous Waste

Active Waste Facility Management Sites in RI- Sites permitted to receive, process, treat, temporarily store or dispose of regulated waste (solid, medical or hazardous).

Active/Inactive Waste Facility Management Site in RI- Active Waste Facility Management Site plus formerly permitted sites (other than closed landfills).

Landfill Closure Program Sites in RI- This inventory contains both formerly permitted landfills that are closed as well as dumps that were never licensed by the Department. This list does not include Superfund Sites and current or former Federal Facilities. This list includes latitude/longitude data that has not been field verified.

Hazardous Waste Manifest Data (not available online)- This list contains data of waste shipments from 1989 or later. There are significant omissions in these data (years 1993-1996). Prior to 2003, data was entered by the Department, after 2003, data is derived from transporter reporting.

Inventory of Underground Storage Tanks (USTs) and Leaking USTs (LUSTs)

The **UST Master List (not available online)** is a summary of registered UST Facilities in RI, which includes information on abandoned, in use, permanently closed and temporarily closed USTs. [not available online]

The **LUST Case List (not available online)** is a summary of UST Facilities in RI with leaking USTs, which includes information on the date of release discovery and the status of the LUST Case (active, soil removal only, or inactive). [not available online]

Legal Disclaimer:

RIDEM/Office of Waste Management maintains an inventory of sites and files in its various programs (Underground Storage Tanks, Waste Facilities Management, Federal Facilities and Site Remediation). These lists are current as of the date indicated. Please note that these lists may change frequently as sites or files are added to or removed from these programs. The presence of a site on one of these lists should not be interpreted as an indication of an ongoing problem at that site. Similarly, and the absence of a site from these lists should not be interpreted as an indication that the site is free of regulatory issues under these programs. Anyone interested in any site on these lists is encouraged to contact the Office for further information and/or email [Angela Spadoni](mailto:Angela.Spadoni@ridem.state.nj.gov) to arrange a file review.
