Paperwork Requirements for UST Installation / Piping Replacement Proposals (An owner/operator must apply for a certificate of registration before commencing construction. Upon receipt and review of a complete application and installation plans, written approval will be issued.)

- A completed *Underground Storage Tank Registration Form*.
- A completed *Equipment List Addendum*.
- A completed *UST Installation/Modification/Upgrade Supplemental Information* form.
- A site plan including all of the information listed below:
 - Proposed location(s) of all tanks, piping, and dispensing pumps.
 - Proposed location(s) of on-site monitoring or observation wells, where applicable.
 - Watertable elevation, where available.
 - Location of all public water supply wells or reservoirs within 400 feet of the facility.
 - Location of all facilities served by private wells or reservoirs within 200 feet of the facility.
 - Location of all proposed and existing buildings and associated structures.
 - Boundaries of the facility.
 - North arrow.
- Specifications or a diagram indicating depth of excavation, bedding, and backfill, supports and anchorage used, distance between tanks, and dimensions (including thickness) of traffic pad.

Note that installation plans for new UST facilities must be stamped by a registered Professional Engineer.

Kindly direct to the attention of:

Gregory Yekhtikian, Senior Sanitary Engineer
