**RE: Request for Extension  
Queen Anne Square  
Newport, Rhode Island  
SAGE Project No. S2244**

Dear Mr. Martella and Ms. Owens:

On behalf of the Doris Duke Monument Foundation (DDMF) and in accord with Site Remediation Regulations Section 7.07 A iii, please accept this correspondence as a request to extend the timeframe to produce a written report documenting the results of All Appropriate Inquiries, analysis and the public meeting and comment period for an additional ten business days.

As you know, there were a number of comments and questions resulting from the public meeting and comment period. To adequately respond to these comments additional time is necessary. Assuming this extension is acceptable the written report will be delivered to your attention no later than 4:00 pm, May 3, 2012.

Thank you for your attention to this matter.

Sincerely,  
SAGE Environmental, Inc.
