SER-1

Subject:  
Springfield Street School Complex Cap Repairs

Date:  
September 27, 2010

Dear Jeff:

Contact:  
Donna Pallister, P.E.

In the August 2010 Quarterly Monitoring Report, we reported that holes were observed at various locations adjacent to the foundation of the middle school building. The holes have been repaired by the Providence School Department and the repairs were verified by an ARCADIS environmental scientist on September 24, 2010.
