Jeff,

Today during soil gas monitoring at Springfield Street, monitoring well MPL7 was found to have an LEL concentration of 1% LEL. This well is adjacent to Hartford Avenue, and we noticed that a sewer cleaning company was cleaning the sewer line in Hartford Avenue near the well, so it is possible that this affected the soil gas concentrations. Methane was not detected in other wells. We will recheck MPL7 to determine if this is a temporary condition related to the sewer cleaning.

Donna
