**From:** Meg Kilpatrick and Jim Clark, GZA

**CC:** Michele V. Leone, National Grid  
William Howard, National Grid

**Date:** 2/10/2012

**Subject:** Upcoming Site Response Action Report – Week of February 13, 2012  
Former Tidewater Facility  
Pawtucket, Rhode Island  
RIDEM Case No. 95-022

---

On behalf of National Grid, the following summarizes response actions expected to be performed at the above-referenced site during the week of February 13, 2012.

### SITE ACTIVITIES TO BE PERFORMED

- Complete site observation walk.
- Repair small area of erosion (< 20 square feet) within former gas holder area with loam and erosion control blanket (this work is within the clean imported soil installed as part of restoration activities following the holder project).
- Remove temporary erosion controls (haybales, silt fencing) installed as part of the former holder demolition activities.

The excavation work associated with the regulator station upgrades is complete. Above-ground work associated with the regulator station is complete, except for replacement of one of the buildings within the regulator station fence line. The schedule for this work is pending.

Please contact me at 401-421-4140 Ext. 2719 if you have any questions or comments.
