

# Low-Level Hydrostatic Tightness Testing Approved List

The following is a list of facilities where low-level hydrostatic testing of sumps and under-dispenser containment have been approved. Remember – Low-level hydrostatic testing is only allowed at facilities that have been pre-approved and meet the applicable compliance and equipment requirements outlined in the RI DEM Low-Level Hydrostatic Tightness Test method. This method is available on our website at <http://www.dem.ri.gov/ust/>. Any test performed at a facility that has not been approved for low-level testing and does not appear on this list shall be considered invalid and cannot be used to meet certain State and Federal regulatory requirements.

DEM Facility ID	Name	Address	Components Eligible for Low-Level Test	Limitations
428	Shell	1783 Louisquisset Pike, Lincoln	STP sumps only	
430	Shell	2095 Diamond Hill Road, Cumberland	STP Sumps only	
433	Shell	708 Greenwich Ave, Warwick	STP Sumps only

806	Shell	1132 Mineral Spring, North Providence	STP sumps only	
807	Shell	780 Great Road, North Smithfield	STP sumps only	
903	Shell	2027 Post Road, Warwick	STP sumps and all dispenser UDC	
920	Shell	579 Metacom Ave, Bristol	STP sumps only	
428	Shell	1783 Louisquisset Pike, Lincoln	STP sumps only	
430	Shell	2095 Diamond Hill Road, Cumberland	STP sumps only	

If you believe a facility should be eligible, please submit a Low-Level testing eligibility form, available on our website, to [joseph.cunningham@dem.ri.gov](mailto:joseph.cunningham@dem.ri.gov) for review.

# Low-Level Hydrostatic Tightness Testing Approved List

A facility may be deemed ineligible for low-level testing at anytime as a result of compliance violations, so it is important to ensure that the facility and its owners/operators maintain compliance with RI DEM regulations, and for testers to check this list prior to performing any low-level testing
