6. GENERAL MANAGEMENT AND LICENSING REGULATIONS

(6.1) Management Controls

(6.1-1) Fishery Endorsements

(a) Fishery endorsement categories shall include:

- (i) Lobster;
- (ii) Non-Lobster Crustacean: all crustacean species, as well as horseshoe crabs, available for commercial harvest, except lobster;
- (iii) Quahaug;
- (iv) Soft-shell Clam;
- (v) Shellfish Other: all shellfish species available for commercial harvest, except quahaug and soft-shell clams;
- (vi) Restricted Finfish: scup (only from May 1 through October 31; scup shall be considered Non-Restricted January 1 through April 30, and November 1 through December 31), summer flounder, tautog, striped bass, and black sea bass;
- (vii) Non-Restricted Finfish: all species of finfish and squid available for commercial harvest except the five species specified in the restricted finfish endorsement category; and
- (viii) Whelk: all whelk species available for commercial harvest.

(b) By rule, the Department may add, eliminate, or modify fishery endorsement categories; in doing so, the Department will consider the status of each fishery, levels of participation by existing license holders, and the provisions of applicable fisheries management plans and programs.

(6.1-2) Harvest and Gear Levels

(a) The Full Harvest and Gear Level will apply to holders of Principal Effort Licenses for the fisheries for which they hold endorsements; and to holders of Multi-Purpose Licenses for all species.

(b) The Basic Harvest and Gear Level will apply to holders of Commercial Fishing Licenses for the fisheries for which they hold endorsements; and to holders of Student Shellfish and 65 and Over Shellfish Licenses.

(c) By rule, the Department shall set, and may periodically adjust, Full and Basic Harvest and Gear Levels on a fishery- or endorsement-specific basis, consistent with state and/or federally sanctioned fisheries management plans or programs.

(6.1-3) Regulation of Gear

(6.1-4) Times and Seasons

(6.1-5) Area Closures and Restrictions

(6.1-6) Quotas

(6.1-7) Catch and Landings Limits

(6.1-8) Limits On Entry

(a) By rule, the Department may limit entry into a fishery by license type or endorsement category, where a state and/or federally sanctioned fisheries management plan finds that fishing effort is at or exceeds sustainable levels.

(b) By rule, the Department may establish entrance/exit ratios, lotteries, waiting lists, or other allocation measures as a means for limiting entry pursuant to subsection 6.1-8(a).

(c) Any/all limits on entry for each license type and/or endorsement shall be annually prescribed in Rule 7.

(6.1-9) Control Dates

(a) By rule, the Department may establish control dates, which shall serve as cut-off dates for potential use in establishing eligibility criteria for future access to a fishery.

(b) Eligibility criteria may include, but are not limited to, historic participation and/or gear levels as documented by transaction records and official state or federal logbooks.

(c) The establishment of a control date is intended to promote awareness of the potential establishment of eligibility criteria for future access to a fishery and to discourage speculative shifting of effort into that fishery. To this end, the Department may give various weighted considerations to those active in the fishery before and after the control date.

(d) Establishing a control date does not commit the Department to any particular management regime or criteria for limiting future access to a fishery; however, once enacted, control dates may only be used to limit future access to a fishery in accordance with a state fisheries management plan.

(e) Control dates may only be established prospectively, unless a retroactive control date is expressly required by federal law, regulation or court decision.

(f) A control date of December 31, 2007 is established for the soft-shell clam fishery in Rhode Island.

(e) A control date of December 31, 2007 is established for the purse seine and mid-water/pair trawl fisheries in Rhode Island.

(a) The Department shall issue new licenses and endorsements in accordance with the provisions of management plans, duly adopted under the provisions of section 6.2. Said plans shall be reviewed and, if necessary, updated annually to reflect changes in (i) regional or federal management plans or programs, (ii) fish stocks and fisheries, and (iii) levels of participation by existing license holders. Said plans may or may not provide for the issuance of certain new licenses or endorsements in any given year, depending on the status and economic condition of each fishery.

(b) New licenses and endorsements shall be made available as of January 1 for that year pursuant to management plans and associated rules adopted no later than December 1 of the preceding year, subject to the provisions set forth herein, and as further delineated in Rules 7 and 8 for each license year.

(c) In cases where a limited number of new licenses or endorsements are to be issued, the Department shall give priority to applicants in the order prescribed by law and as further delineated in sections 6.7-6 and 6.7-7. All eligible applicants in each priority category will be issued licenses or endorsements before any licenses or endorsements

are issued to applicants in the next lower priority category. If in any priority category there are more eligible applicants than there are licenses or endorsements available for issue, those licenses or endorsements will be issued by lottery, unless otherwise specified herein.

(d) In cases where a limited number of new licenses or endorsements are to be issued, the Department will accept applications until the application deadline set forth under 6.7-3, and then issue said licenses or endorsements to eligible applicants within fifteen (15) business days following the deadline date. To ensure fairness in these cases, no new licenses or endorsements will be issued before the application deadline date.

(6.7-6) Issuance of New Licenses and Endorsements; Prioritization

(a) First priority in the issuance of new licenses with applicable endorsement(s) shall be given to (i) licensed resident fishers holding Commercial Fishing Licenses, endorsed in the same fishery sector (see section 5.31) for which a new license/ endorsement is being sought, who have been actively fishing that endorsement, (ii) licensed resident fishers holding Principal Effort Licenses who have been actively fishing their license, and (iii) resident crew members who have been actively participating in the same fishery sector for which a new license/endorsement is being sought. One-third of the total number of new licenses with applicable endorsements will be made available to each of the three priority categories. If, in any of the categories, there are fewer eligible applicants than there are licenses/endorsements available for issue, then the balance will be evenly distributed to the other two categories. Within each category, eligible applicants will be prioritized based on the length of time, in years, they have been actively fishing their license, or actively participating in the fishery as a crew member, on a continuing basis. If the selection of qualified applicants cannot be resolved equitably by the initial prioritization and lottery process, and if the number of remaining endorsements cannot be distributed evenly between the remaining categories, the number of remaining endorsements will be rounded up to provide each remaining category with the necessary endorsement(s) required to complete the selection process.

(b) Second priority in the issuance of new licenses with applicable endorsement(s) shall be given to (i) licensed resident fishers holding Commercial Fishing Licenses, endorsed in any fishery sector, who have been actively fishing their license and (ii) resident crew members who have been actively participating in any fishery sector. One-half of the total number of new licenses with applicable endorsements will be made available to each of the two categories. If, in any of the categories, there are fewer eligible applicants than there are licenses/endorsements available, then the balance will be distributed to the other category. Within each category, eligible applicants will be prioritized based on the length of time, in years, they have been actively fishing their license, or actively participating as a crew member, on a continuing basis. If the selection of qualified applicants cannot be resolved equitably by the initial prioritization and lottery process, and if the number of remaining endorsements cannot be distributed evenly between the remaining categories, the number of remaining

endorsements will be rounded up to provide each remaining category with the necessary endorsement(s) required to complete the selection process.

(c) Third priority in the issuance of new licenses with applicable endorsement(s) shall be given to any resident, aged eighteen (18) or older.

(d) Fourth priority in the issuance of new licenses with applicable (i.e., restricted finfish) endorsement shall be given to any non-resident, aged eighteen (18) or older.

(b) The applicable endorsement(s) will be in the fishery sector(s) that was/were being actively fished by the retiring license holder.

(c) The new license/endorsement(s) issued to the purchaser by the Department will generally correspond to the license/endorsement(s) that were being actively fished by the seller. The Department may, however, issue the new license/endorsement(s) at a lower harvest and gear level than the license surrendered by the seller where necessary to accomplish the purposes of the applicable management plan adopted pursuant to section 6.2. New licenses issued pursuant to this section are not subject to the application deadline provisions set forth under section 6.7-3.

(d) A seller of a vessel and gear who is unable to meet the actively fishing standard due to a material incapacitation, as defined in section 5.45, and as further described below, may seek consideration pursuant to this section, provided that all terms and conditions of this section are met.

(i) In order to establish a material incapacitation on the basis of a medical condition, a seller must present evidence, in the form of notarized documentation, demonstrating that the seller or the seller's family member had a physical or mental impairment, which prevented the seller from meeting the actively fishing standard, during the two (2) calendar years preceding the sale of the vessel and gear. The physical or mental impairment must have involved inpatient care in a hospital, a nursing home, or a hospice, or outpatient care requiring continuing treatment or supervision by a health care provider. If the material incapacitation involved a family member, evidence must be presented demonstrating that the seller had a direct role in the care of the family member.

(ii) In order to establish material incapacitation on the basis of military service, a seller must present appropriate documentation (namely, form DD214) establishing that he/she served, for one hundred eighty (180) or more days, either on active duty in the armed forces or as a member of a national guard or reserve component of the same, activated by order of an appropriate state or federal authority, during the two (2) calendar years preceding the sale of the vessel and gear.

(c) In the case of permanent incapacity or death, the Department will issue, upon application, a single, new, equivalent license with applicable endorsement(s) to a member of the license holder's family who is a Rhode Island resident. That family member may be designated by the license holder or by mutual agreement among surviving family members if the license holder is deceased. Prior to issuance of the new license, the original license will be surrendered. The new license will be valid for

the balance of the license year, and will be eligible for renewal pursuant to the terms and conditions set forth in section 6.7-3.

(d) In lieu of subsection 6.7-9(c), in the case of permanent incapacity or death, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder, or in the case of death, by the deceased individual's next of kin. Said permit or license will serve as the legal equivalent of the license held by the original licensee. Prior to issuance of the operator permit or equivalent license, the original license will be surrendered. The operator permit or equivalent license will be valid for the balance of the license year and will be eligible for renewal once, at a cost equal to the original license, upon approval by the Director.

(e) In the case of temporary incapacity, exceeding a period of fourteen (14) days, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder. Said permit or license will serve as the legal equivalent of the license held by the incapacitated license holder. Prior to issuance of the operator permit or equivalent license, the original license will be suspended. The operator permit or equivalent license will remain valid for the balance of the license year, or until the return to wellness of the incapacitated license holder, whichever occurs first. The operator permit or equivalent license will be eligible for renewal once, at a cost equivalent to the cost of the original license, upon approval of the Director. Upon the return to wellness of the incapacitated license holder, the original license will, upon application, be reinstated and the operator permit or equivalent license will be surrendered.

(c) If a vessel makes more than one trip in recreational mode per day, the catches attributable to the same licensed or exempt fishers or spearfishers who go out again are cumulative.

(10.2) Party/Charter Vessels

(a) Only party/charter vessels licensed in accordance with RIGL section 20-2-27.1 may fish in party/charter mode.
