1. PURPOSE

The purpose of these regulations is to establish a process for managing marine fisheries, through the development of management plans and programs, licensing protocols, and data collection systems.

2. AUTHORITY

These Rules and Regulations are promulgated pursuant to Chapter 42-17.1, Section 20-1-4, Chapter 20-2.1, and Chapter 20-2.2, and in accordance with Chapter 42-35, of the Rhode Island General Laws of 1956, as amended.

3. APPLICATION

The terms and provisions of these rules and regulations shall be liberally construed to permit the Department to effectuate the purposes of state law, goals, and policies.

4. SUPERCEDED RULES AND REGULATIONS

On the effective date of these Rules and Regulations, all previous Rules and Regulations, and any policies regarding the administration and enforcement of the General Laws in Chapter 20-2, entitled "Licensing," Chapter 20-2.1 entitled "Commercial Fishing Licenses," and Chapter 20-3.1, entitled "Marine Fisheries Management Modernization," shall be superseded, provided that regulations promulgated by the Director or the Rhode Island Marine Fisheries Council pursuant to Chapter 20-3, entitled "Marine Fisheries Council" will remain in effect until amended or replaced. Provided, furthermore, that any enforcement action taken by, or application submitted to, the Department prior to the effective date of these Rules and Regulations shall be governed by the Rules and Regulations in effect at the time the enforcement action was taken or application was filed.

5. DEFINITIONS

See Rhode Island Marine Fisheries Regulations, "Part I – Definitions".

6. GENERAL MANAGEMENT AND LICENSING REGULATIONS

6.1 Management Controls:

6.1.1 Fishery Endorsements:

(a) Fishery endorsement categories shall include:

- (i) Lobster;
- (ii) Non-Lobster Crustacean: all crustacean species, as well as horseshoe crabs, available for commercial harvest, except lobster;
- (iii) Quahaug;
- (iv) Soft-shell Clam;
- (v) Shellfish Other: all shellfish species available for commercial harvest, except quahaug and soft-shell clams;
- (vi) Restricted Finfish: scup (only from May 1 through October 31; scup shall be considered Non-Restricted January 1 through April 30, and November 1 through December 31), summer flounder, tautog, striped bass, and black sea bass;
- (vii) Non-Restricted Finfish: all species of finfish and squid available for commercial harvest except the five species specified in the restricted finfish endorsement category; and
- (viii) Whelk: all whelk species available for commercial harvest.

(b) By rule, the Department may add, eliminate, or modify fishery endorsement categories; in doing so, the Department will consider the status of each fishery, levels of participation by existing license holders, and the provisions of applicable fisheries management plans and programs.

6.1.2 Harvest and Gear Levels:

(a) The Full Harvest and Gear Level will apply to holders of Principal Effort Licenses for the fisheries for which they hold endorsements; and to holders of Multi-Purpose Licenses for all species.

(b) The Basic Harvest and Gear Level will apply to holders of Commercial Fishing Licenses for the fisheries for which they hold endorsements; and to holders of Student Shellfish and 65 and Over Shellfish Licenses.

(c) By rule, the Department shall set, and may periodically adjust, Full and Basic Harvest and Gear Levels on a fishery- or endorsement-specific basis, consistent with state and/or federally sanctioned fisheries management plans or programs.

6.1.3 Regulation of Gear

6.1.4 Times and Seasons

6.1.5 Area Closures and Restrictions

6.1.6 Quotas

6.1.7 Catch and Landings Limits

6.1.8 Limits on Entry

(a) By rule, the Department may limit entry into a fishery by license type or endorsement category, where a state and/or federally sanctioned fisheries management plan finds that fishing effort is at or exceeds sustainable levels.

(b) By rule, the Department may establish entrance/exit ratios, lotteries, waiting lists, or other allocation measures as a means for limiting entry pursuant to subsection 6.1.8(a).

(c) Any/all limits on entry for each license type and/or endorsement shall be annually prescribed herein in Rule 7.

6.1.9 Control Dates:

(a) By rule, the Department may establish control dates, which shall serve as cut-off dates for potential use in establishing eligibility criteria for future access to a fishery.

(b) Eligibility criteria may include, but are not limited to, historic participation and/or gear levels as documented by transaction records and official state or federal logbooks.

(c) The establishment of a control date is intended to promote awareness of the potential establishment of eligibility criteria for future access to a fishery and to discourage speculative shifting of effort into that fishery. To this end, the Department may give various weighted considerations to those active in the fishery before and after the control date.

(d) Establishing a control date does not commit the Department to any particular management regime or criteria for limiting future access to a fishery; however, once enacted, control dates may only be used to limit future access to a fishery in accordance with a state fisheries management plan.

(e) Control dates may only be established prospectively, unless a retroactive control date is expressly required by federal law, regulation or court decision.

(f) A control date of December 31, 2007 is established for the soft-shell clam fishery in Rhode Island.

- (f) A control date of December 31, 2007 is established for the purse seine and mid-water/pair trawl fisheries in Rhode Island.

Hearing Item 1a.
Annual review of exit/entry ratios for restricted
endorsement categories (i.e, Restricted Finfish, Quahaug,
and Soft-shell clam
(section 6.1.10 (a), (b), and (c))

(Please note that no changes are proposed but is open to comment)

6.1.10 Exit/Entry Ratios:

(a) Restricted finfish – For every one (1) license, eligible to harvest restricted finfish, namely, Multi-Purpose Licenses and Principal Effort Licenses with a restricted finfish endorsement, that are not renewed, one (1) new Principal Effort License with restricted finfish endorsement will be made available; provided, that if the application of the exit/entry ratio yields a value less than a multiple of three (3) endorsements, the number of endorsements will be rounded up to yield a multiple of three (3) endorsements.

(b) Quahaug -- For every one (1) license eligible to harvest quahaug, namely, Multi-Purpose Licenses and Principal Effort Licenses with a quahaug endorsement, that are not renewed, one (1) new Commercial Fishing License with quahaug endorsement will be made available; provided, that if the application of the exit/entry ratio yields one (1) or two (2) licenses/endorsements, three licenses/endorsements will be made available.

(c) Soft Shell Clam – For every five licenses, eligible to harvest soft shell clam, namely, Multi-Purpose Licenses, Principal Effort Licenses with a soft shell clam endorsement, and Commercial Fishing Licenses with a soft shell clam endorsement, that are not renewed, one (1) new Commercial Fishing License with soft shell clam endorsement will be made available; provided, that if the application of the exit/entry ratio yields one or two (2) licenses/endorsements, three licenses/endorsements will be made available.

6.1.11 Annual Promulgation of Rules:

(a) Availability of new licenses and endorsements, harvest and gear levels, regulations affecting gear, times and seasons, area closures and restrictions, quotas and catch or landings limits, limits on entry, control dates and data reporting shall be established by rule as hereinafter described on an annual basis, no later than December 1 for the following year, provided that said regulations may run for longer periods where management conditions permit, or may be adjusted more frequently where such conditions require.

6.2 Management Plans:

6.2.1 Required:

(a) The management controls set forth in section 6.1 must be based on fishery management plans that have been adopted by the Department or by a federal agency or regional body of competent jurisdiction. Such plans may be species - or fisheries-specific or apply to whole endorsement categories.

6.2.2 Purpose and Content:

- (a) The central objectives of all fishery management plans shall be

 - (ii) To restore overfished or depleted stocks to sustainable levels.
- (b) Management plans shall be responsive to, and reflective of, changing stock and fishery conditions, and thereby support an adaptive management process.
- (c) Management plans shall seek to achieve the objectives set forth in subsection (a) above by establishing management measures that may include a mix of input and output controls, such as limitations or restrictions on effort, gear, catch, areas, times, and/or seasons.
- (d) Management plans shall specifically address, and make annual determinations on, the number and availability of licenses and endorsements, and the harvest and gear levels associated therewith. Such determinations shall be made in accordance with the objectives set forth in subsection (a) above, and with due regard to: (i) the social and economic well-being of fishers and fishing-dependent communities, particularly the interests of licensed residents who wish to continue fishing commercially in a manner that is economically viable; and (ii) the interests of residents who wish to fish commercially.
- (e) In considering the economic and social impacts of licensing and other management measures on fishers and fishing-dependent communities, as well as on the general public, management plans shall to the maximum extent feasible employ methodologies that are consistent with those employed by the National Oceanic and Atmospheric Administration (NOAA) Fisheries.
- (f) Management plans shall be based on the best scientific information available.
- (g) Management plans shall consider the effectiveness of management measures in reducing by-catch, by-catch mortality, and discards.
- (h) Management plans shall complement federal and regional management plans and programs and the reciprocal arrangements with other states.
- (i) Management plans shall be consistent with the national standards for fishery conservation and management set forth in the Magnuson-Stevens Fishery Conservation and Management Act (16 USC, section 1851) and further delineated in RIGL §20-2.1-9(2)(iv).
- (j) Management plans may take into consideration other factors that the Director deems appropriate.

6.3 Emergencies:

- (a) The Director may promulgate marine fisheries management rules with less than sixty (60) days' notice to RIMFC if and to the extent necessary to comply with federal or regional requirements or to respond to sudden and/or imminent peril or unanticipated developments where delay would likely cause immediate harm to fishery resources or fishers pursuant to RIGL §42-35-3.

6.4 Annual Report:

6.4.1 Content:

(a) The Director shall prepare an annual report on the conservation and management of marine fisheries resources for the General Assembly and the citizens of the State. All eligible applicants in each priority category will be issued licenses or endorsements before any licenses or endorsements are issued to applicants in the next lower priority category. If in any priority category there are more eligible applicants than there are licenses or endorsements available for issue, those licenses or endorsements will be issued by lottery, unless otherwise specified herein.

(d) In cases where a limited number of new licenses or endorsements are to be issued, the Department will accept applications until the application deadline set forth under 6.7.3, and then issue said licenses or endorsements to eligible applicants within fifteen (15) business days following the deadline date. To ensure fairness in these cases, no new licenses or endorsements will be issued before the application deadline date.

6.7.6 Issuance of New Licenses and Endorsements; Prioritization:

(a) First priority in the issuance of new licenses with applicable endorsement(s) shall be given to (i) licensed resident fishers holding Commercial Fishing Licenses, endorsed in the same fishery sector for which a new license/ endorsement is being sought, who have been actively fishing that endorsement, (ii) licensed resident fishers holding Principal Effort Licenses who have been actively fishing their license, and (iii) resident crew members who have been actively participating in the same fishery sector for which a new license/endorsement is being sought. One-third of the total number of new licenses with applicable endorsements will be made available to each of the three priority categories. If, in any of the categories, there are fewer eligible applicants than there are licenses/endorsements available for issue, then the balance will be evenly distributed to the other two categories. Within each category, eligible applicants will be prioritized based on the length of time, in years, they have been actively fishing their license, or actively participating in the fishery as a crew member, on a continuing basis. If the selection of qualified applicants cannot be resolved equitably by the initial prioritization and lottery process, and if the number of remaining endorsements cannot be distributed evenly between the remaining categories, the number of remaining endorsements will be rounded up to provide each remaining category with the necessary endorsement(s) required to complete the selection process.

(b) Second priority in the issuance of new licenses with applicable endorsement(s) shall be given to (i) licensed resident fishers holding Commercial Fishing Licenses, endorsed in any fishery sector, who have been actively fishing their license and (ii) resident crew members who have been actively participating in any fishery sector. One-half of the total number of new licenses with applicable endorsements will be made available to each of the two categories. If, in any of the categories, there are fewer eligible applicants than there are licenses/endorsements available, then the balance will be distributed to the other category. Within each category, eligible applicants will be prioritized based on the length of time, in years, they have been actively fishing their license, or actively participating as a crew member, on a continuing basis. If the selection of qualified applicants cannot be resolved equitably by the initial prioritization and lottery process, and if the number of remaining endorsements cannot be distributed evenly between the remaining categories, the number of remaining endorsements will be rounded up to provide each remaining category with the necessary endorsement(s) required to complete the selection process.

(c) Third priority in the issuance of new licenses with applicable endorsement(s) shall be given to any resident, aged eighteen (18) or older.

(d) Fourth priority in the issuance of new licenses with applicable (i.e., restricted finfish) endorsement shall be given to any non-resident, aged eighteen (18) or older.

6.7.7 Issuance of New Licenses and Endorsements: Automatic Eligibility for Family Members or Crew Members of Retirees:

(a) Anyone who is qualified as a priority applicant pursuant to subsection 6.7.6(c) may automatically obtain a Commercial Fishing License with applicable endorsement(s), or a Principal Effort License with a Restricted Finfish Endorsement, if they are the family member or crew member of a license holder (any type) who chooses not to renew their license.

(b) The applicable endorsement(s) will be in the fishery sector(s) that was/were being actively fished by the retiring license holder.

(c) Only one new license will be issued for each one retired.

6.7.8 Issuance of New Licenses upon Sale of Vessel and/or Gear:

(a) This section applies only to purchasers, of vessels and gear, who are residents.

(b) Transfer or sale of licenses and endorsements between the purchaser and seller of a vessel and/or gear is prohibited; provided, however, that if the seller of a vessel and/or gear who is actively fishing his or her license shall have first surrendered it to the Department, the Department will, upon application, issue one new license to the purchaser of the vessel and/or gear, pursuant to the terms and conditions of this section.

(c) The new license/endorsement(s) issued to the purchaser by the Department will generally correspond to the license/endorsement(s) that held by the seller. The Department may, however, issue the new license/endorsement(s) at a lower harvest and gear level than the license surrendered by the seller where necessary to accomplish the purposes of the applicable management plan adopted pursuant to section 6.2. New licenses issued pursuant to this section are not subject to the application deadline provisions set forth under section 6.7.3.

(d) Any new license/endorsement(s) issued to the purchaser by the Department pursuant to section 6.7.8 may only be issued to the new licensee upon payment to the Department of the statutorily established fee for the subject license or endorsement.

6.7.9 Issuance of New Licenses and Operator Permits Under Hardship Conditions:

(a) A hardship shall be deemed to exist if a license holder dies or becomes permanently or temporarily incapacitated by illness or injury so as to not be able to fish for any period in excess of fourteen (14) days.

(b) The Department will require proof of hardship in the form of a death certificate or a diagnosis and prognosis of the incapacity of the license holder signed by a medical doctor (M.D. or O.D.).

(c) Solely for the purposes of this Section, a license holder shall be deemed to satisfy the requirement to be found "actively fishing" if the license holder demonstrates to the satisfaction of the Division by dated transaction records, and for multiple-day trips, Vessel Trip Reports, that he or she has fished at least 40 days pursuant to a valid RI license in at least 2 consecutive calendar years from 2006 to the date of the license holder's hardship. Such fishing activity needs to be in the same fishery sector(s) or endorsement category(s) for which a new license/endorsement is being sought, as specified in this Section.

(d) In the case of permanent incapacity or death, the Department will issue, upon application, a single, new, equivalent license with applicable endorsement(s) to a member of the license holder's family who is a Rhode Island resident. That family member may be designated by the

license holder or by mutual agreement among surviving family members if the license holder is deceased. Prior to issuance of the new license, the original license will be surrendered. The new license will be valid for the balance of the license year, and will be eligible for renewal pursuant to the terms and conditions set forth in section 6.7.3.

(e) If a license holder dies without designating a family member who is a Rhode Island resident and the license holder's surviving family members are unable to reach a mutual agreement as to which family member who is a Rhode Island resident should be issued a single, new, license with applicable endorsement(s) that is the equivalent of the license with applicable endorsement(s) that was held and actively fished by the decedent license holder at the time of his/her demise, the administrator or executor of the estate of the decedent license holder shall be entitled to be reissued by the Department a single equivalent license with applicable endorsement(s) at the statutorily established fee(s) for up to two (2) years during the probating of the estate.

(f) In lieu of subsection 6.7.9(c), in the case of permanent incapacity or death, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder, or in the case of death, by the deceased individual's next of kin. Said permit or license will serve as the legal equivalent of the license held by the original licensee. Prior to issuance of the operator permit or equivalent license, the original license will be surrendered. The operator permit or equivalent license will be valid for the balance of the license year and will be eligible for renewal once, at a cost equal to the original license, upon approval by the Director.

(g) In the case of temporary incapacity, exceeding a period of fourteen (14) days, the Department will issue, upon application, an operator permit or equivalent license of the same category to a Rhode Island resident designated by the incapacitated license holder. Said permit or license will serve as the legal equivalent of the license held by the incapacitated license holder. Prior to issuance of the operator permit or equivalent license, the original license will be suspended. The operator permit or equivalent license will remain valid for the balance of the license year, or until the return to wellness of the incapacitated license holder, whichever occurs first. The operator permit or equivalent license will be eligible for renewal once, at a cost equivalent to the cost of the original license, upon approval of the Director. Upon the return to wellness of the incapacitated license holder, the original license will, upon application, be reinstated and the operator permit or equivalent license will be surrendered.

(h) New equivalent licenses issued pursuant to this section are not subject to the application deadline provisions set forth under section 6.7.3.

(i) Any new license/endorsement(s) issued to the purchaser by the Department pursuant to section 6.7.9 may only be issued to the new licensee upon payment to the Department of the statutorily established fee for the subject license or endorsement.

6.7.10 Requests for Reconsideration of License Denials:

(a) There shall be no right to request reconsideration by the commercial fishing license review board or appeal to the department of environmental management's administrative adjudication division (AAD) for the rejection of any new license applications submitted after February 28, or any license renewal applications submitted after the sixty (60) day grace period, except in the case of a documented medical hardship as defined herein.

(b) Requests for reconsideration of license application denials in cases of medical hardship must be submitted to the Board in writing c/o the Office of Boat Registration and Licensing within ten (10) days of receipt of the denial. The recommendation shall include the specific grounds for its decision and the vote of the Board. A copy of the recommendation will be mailed first class, postage prepaid, to the applicant.

(f) If a written recommendation is not rendered within thirty (30) days as set forth above, the preliminary decision of the Office of Boat Registration and Licensing shall become final and subject to appeal pursuant to Subsection 6.7.10(i).

(g) In reaching its recommendation the Board shall consider:

(i) The impact that issuance of the license will have on the fisheries management program overall;

6.10 Landing Permits:

6.10.1 General Requirements:

(a) A Landing Permit or a valid Rhode Island Resident or Non-Resident Licenses with the appropriate fishery endorsements, but not both a permit and license, is required to off-load any seafood product legally harvested outside of Rhode Island waters for sale or intended sale in Rhode Island, or to secure a vessel with the seafood products on board to a shoreside facility where the products may be offloaded for sale or intended sale.

(b) If the operator of a vessel carrying seafood products notifies the Department's Division of Law Enforcement at least four hours before entering Rhode Island waters that he/she intends to dock in a Rhode Island port for specified purposes other than landing, selling, or offering that seafood for sale, and if permission to do so is first obtained from the Division of Law Enforcement, no landing permit or Rhode Island license is required.

(c) The Department will issue a Landing Permit upon proof that an applicant holds a valid federal or non-Rhode Island state license or permit(s) to harvest a given species or group of similar species, provided that the Landing Permit so issued will only allow the landing of those species authorized by said federal or state permit.

(d) A Landing Permit is issued to an individual and not a vessel, although the vessel(s), which will generate the landings, must be identified. The landing permit may not be transferred and does not attach to a vessel when it is sold.

(e) The individual in charge of a vessel subject to this section must be in possession of a Landing Permit issued to that individual in order for that vessel to legally enter Rhode Island waters.

(f) Landing permits are not subject to the application deadline provisions set forth under section 6.7.3.

(b) The annual fee for Non-Resident Landing Permit with Restricted Finfish is four hundred dollars (\$400).

(c) New Non-Resident Landing Permit with Restricted Finfish will only be issued if the landing is charged to the quota of the state in which the vessel making the landing is registered or

documented; or, if the state where the vessel making the landing is registered or documented allows Rhode Island residents to land against its quota for that species; or, if the Department pursuant to a duly adopted fisheries management plan determines there to be excess harvesting capacity in the Rhode Island commercial quota for that species.

(d) Renewal of Non-Resident Landing Permit with Restricted Finfish are considered to be new permits subject to the provisions of subsection 6.10.7(c) unless the applicant can show evidence of Rhode Island landings of more than one thousand pounds of that species per year in four of the five years preceding the application. Having made that demonstration, a holder of a Non-Resident Landing Permit with Restricted Finfish who held that permit as of the immediately preceding year may renew it for the immediately following year as set forth herein.

(e) If a non-resident vessel is upgraded by twenty percent (20%) or more in length, displacement or horsepower, renewal of a Non-Resident Landing Permit with Restricted Finfish will be considered a new permit application, issuance of which is subject to the requirements of subsection 6.10.7(c).

(b) Any person, partnership, firm, association, or corporation engaged solely in the business of selling seafood to consumers, either directly or through restaurants or other retail outlets, and/or engaged solely in the processing or preparation of seafood for sale directly to consumers, is not required to be licensed under these regulations, provided that such person, partnership, firm, association, or corporation purchases or otherwise acquires said seafood from licensed dealers.

(b) With regard to all species that are not subject to per-vessel restrictions, compliance with possession limits while fishing in recreational mode shall be determined by dividing the total number of fish aboard the vessel by the total number of licensed or exempt recreational fishers or spearfishers aboard the vessel.

(c) If a vessel makes more than one trip in recreational mode per day, the catches attributable to the same licensed or exempt fishers or spearfishers who go out again are cumulative.

10.2 Party/Charter Vessels:

(a) Only party/charter vessels licensed in accordance with RIGL section 20-2-27.1 may fish in party/charter mode.
