

RHODE ISLAND BOWHUNTER SIGHTING LOG

Instructions:

- For each day you hunt, record the town, management area (if applicable), the number of hours you spent in your stand and the number of animals seen while in the stand. If you hunt more than one location in one day fill out a separate line for each location. If you hunt during the morning and during the afternoon use separate lines to record AM hours and PM hours. Use additional cards if necessary.
- Any species not appearing in the table should be written in the “other” column, along with the number of that species seen.
- **It is important to record the town, management area, and the number of hours even if you did not see any of the listed species.**
- Make any comments or suggestions you may have in the space provided.

SAMPLE:

Date	AM / PM	# of hours	Town	Mgt. Area	Fisher	Coyote	Bobcat	Squirrels	Raccoon	Black bear	Red fox	Gray fox	Turkey	Grouse	Bucks	Antlerless deer	Other
