

THE ENERGY-SAVING TREES PROGRAM helps people save energy by planting the right trees in the right places to effectively shade their homes. Planting shade trees for energy efficiency is already helping big and small communities improve energy efficiency.

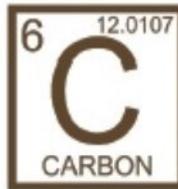

ESTABLISHED
FALL 2015

TOTAL TREES PLANTED

THROUGH THE ENERGY-SAVING TREES PROGRAM:

805

TOTAL HOMEOWNERS ENGAGED: 745

2,005,583 lbs

CARBON SEQUESTERED/AVOIDED

988,753 kWh SAVED

6,839,385 GALLONS OF STORMWATER FILTERED

\$357,378 IN COMBINED ENERGY AND COMMUNITY BENEFITS

\$45,572 INVESTED IN ENERGY SAVING TREES PROJECT

**projected 20 year cumulative values*
