### GENERAL CONDITIONS FOR DUCK RACES

These conditions apply to any individual or group who wishes to hold a duck race.

1. The ducks be made of material that is non toxic.
2. The ducks must all be retrieved from the State's waters upon the completion of the race.
3. The alteration of existing vegetated riverbank by any cutting, clearing or other activity is not permitted to create a viewing area. A viewing area must be provided and adequately controlled to prevent adverse impacts to wetland areas.
4. The ducks must be placed in and retrieved from the river without damaging the existing vegetated riverbank.

Failure to comply with these conditions may result in the violation of the Departments' regulations, which could lead to the commencement of enforcement proceedings.

I understand the above conditions and agree to abide by them.
